### Christian Children's Home of Ohio

"We really enjoyed our experience with Bright Life Players. They were extremely easy to work with and were flexible with all the needs we had as an organization while they were putting together their production. Best of all, they presented a wonderful show and many people came on to our campus for the very first time. If given the opportunity, I would encourage anyone to partner with Bright Life Players."

"Being the beneficiary of the Bright Life Players production was such a blessing to our organization. The financial gift was simply overwhelming. The best part of the experience was watching the talent on display and knowing that the actors were using their talent to the glory of God and the benefit of their fellow man. Thank you Bright Life Players!"
